	Voter Rationale: Voter Rationale: In general, we vote against the Chair of the Nomination Committee (or withhold/abstain depending on the market) when the Board is not compromised of 40% underrepresented gender identities, or other Board members on a case by case basis. We choose not to vote against all the incumbent members of the Nomination Committee and to instead show our dissatisfaction about the lack of Board diversity by voting specifically against the Chair and engaging on the topic with the company. If a company demonstrate credible progress on Board diversity, we might consider to still support the election of the Chair of the Nomination Committee.

If a company demonstrate credible progress on Board diversity, we might consider to still support the election of the Chair of the Nomination Committee. 	Voting Policy Rationale: The board has withdrawn the nomination for Andrew Witty; therefore, a NONE recommendation is warranted						
2	Advisory Vote to Ratify Named Executive Officers' Compensation	Mgmt	For	Against			
	Voting Policy Rationale: A vote AGAINST this proposal is warranted. On May 14, 2025, the company filed a Form 8-K announcing that CEO Andrew Witty stepped down from his position on May 12, 2025, and the board appointed non-executive chair and former CEO Stephen Hemsley as the new CEO and board chair. Hemsley's initial compensation arrangements as disclosed in the Form 8-K include a one-time grant of stock options valued at \$60 million that cliff vest after three years, and the company discloses that he will not receive additional annual equity awards in his first three years of employment. The award raises significant concern: front-loaded awards intended to cover multiple years of incentive pay limit the board's ability to meaningfully adjust future pay opportunities in the event of unforeseen circumstances or changes in performance or strategic focus. In this case, the award lacks any performance conditions and prevents the compensation committee from granting the new CEO performance-based equity for three years. Shareholders may additionally have concerns with the timing of the grant: a large option award granted at a time when the stock price has sharply declined has the potential to result in a windfall for the CEO upon a rebound in the share price.
